

SPECIFICATIONS

ShoreTel Dock for Apple® iPhone® and iPad®

The ShoreTel Dock is the first and only business-grade device that transforms the Apple iPhone and iPad into desk phones for the mobile generation. It fuses the features users like about desk phones with the convenience of their mobile devices. With support for both Apple's iPhone and tablet, an articulating arm allowing users to rotate their iPad between portrait and landscape orientation, as well as both Bluetooth and direct connectivity through the Apple 30-pin connector to deliver the best audio quality possible while charging the mobile device, the ShoreTel Dock is the only UC offering to optimize how people communicate.

The ShoreTel Dock, when combined with the ShoreTel Mobility Client, securely extends unified communications applications including voice, location-aware presence and instant messaging to mobile devices; smartphones and tablets can now be a user's primary communications device.

BENEFITS:

- Enterprise-grade solution
- Ergonomics of a desk phone extended to mobiles
- High quality audio through handset, speakerphone or headset
- Charges mobile devices when docked
- Plug-and-play simplicity

About ShoreTel

ShoreTel is a provider of business communication solutions whose brilliantly simple unified communications platforms, applications and mobile UC solutions promise a new rhythm of workforce engagement and collaboration. With costly complexity eliminated by design from its award winning, all-in-one IP phone system, UC and contact center solution, and its industry leading hosted business phone system, workers enjoy a freedom and self-reliance that other providers can't match. Users have full control to engage and collaborate, no matter the time, place or device, for the lowest cost and demand on IT resources in the industry. ShoreTel is headquartered in Sunnyvale, California, and has regional offices and partners worldwide. For more information, visit shoretel.com or shoretelsky.com
